Mrs. L. H. Barss, pioneer resident of this district, passed away in the Mannville hospital on May 28th at the age of 62. Mrs. Barss, the former Mary Elizabeth Pile, was born at Hansall, Ont., July 27th, 1897 and came with her parents to their homestead in the Alberta district in the spring of 1910. She was married to Mr. Leighton Barss of Alberta on January 6, 1915, and continued to live in that district until about 18 months ago when they took up residence in Irma. Mrs. Barss was of a quiet retiring nature but was a wonderful mother and homemaker and was very hospitable. Those who were privileged to have her friendship found in her a loving and loyal friend. She was a member of the Women's Mission-

ary Society and was a gifted needlewoman. Funeral services were held from the Irma United Church on Monday, June 1st. The Rev. H. W. Inglis was in charge. Interment was made in the Irma cemetery. Pall bearers were Messrs C. L. Currie, Roy Hay, J. B. Allen, Haakon Larson, Ivan Hardy and R. A. McRoberts. She leaves to mourn her loving husband, three sons, John and Harlet of Irma, and David of Calgary; two daughters, Mrs. Percy Miller of Irma, and Miss Frances Barss of Calgary; her father, Mr. Fred Pile of New Westminster, B.C.; two brothers, Fred of New Westminster, and Charlie of Irma and one sister, Mrs. Applegate of Ontario; also eleven grandchildren.

### Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

Then Peter, filled with the Holy Ghost, said unto them, Ye rulers of the people, and elders of Israel.  
If we this day be examined of the good deed done to the impotent man, by that means he is made whole;  
Be it known unto you all, and to all the people of Israel, that by the name of Jesus Christ of Nazareth, whom ye crucified, whom God raised from the dead, even by Him doth this man stand here before you whole.

This is the stone which was set at nought of you builders, which is become the head of the corner.  
Neither is there salvation in any other: for there is none other name under heaven given among men, whereby we must be saved.—Acts 4:8-12.

## Cubaree Attended by Members Irma Cub Pack

Under the leadership of Mr. Gage Pendleton, 13 members of the Irma Cub pack participated in the first annual Cubaree of the Battle River District Council held Sunday afternoon, June 7th at the Camp Wainwright stadium.  
Favoured with ideal weather and good attendance, the Cubaree, under the sponsorship of the Camp Wainwright Scout Group Committee, brought together a fine degree of solemnity, ceremony, competitive spirit, parental interest, and humorous incidents all spiced with the unpredictableness of youth.

Beginning with the Flag Break, the singing of "O Canada," followed by the prayer by District Commissioner Grant Salmon, and the colorful March Past, the program moved on from the Address of Welcome by Honourary President Col. Gemmell to the field events competitions among the different Cub packs from Chauvin, Edgerton, Vermilion, Town of Wainwright, Camp Wainwright and Irma.

Much puffing and heaving was evident in the Tug-of-War contest and even the audience was observed to be rising out with the "body English" as the marker on the rope sea-sawed between give and take. However, the real crowd-pleaser proved to be the timed obstacle race in which each team high-stepped diagonally through a dozen car tires laid on the ground.

crawled (I should say "squeezed") through a tooth-paste tube-like canvas 20 feet long... dived through a truck tire suspended about two feet above ground by a rope tied to a stand... and finally clambering over a high vaulting-box and sprinting to the finish line.  
The contestants had their innings soon though, for after a

## Navy League & Sea Cadets Hold Annual Inspection

The Sea Cadets and Navy League Cadets of RCSC Cayuga, held their Annual Inspection in the beautiful Lola Mabey School Auditorium in Wainwright, May 27. There was an excellent turn out of parents and friends and Irma was well represented.

Following the Inspection the guests were invited to the Home Economics rooms where a delicious lunch was served.

The awards which were made to the Irma Sea Cadets were as follows:

NOTE CHANGE OF PROGRAM

THIEVES TAKE  
CASH REGISTER AT  
GOLKA GARAGE

(From the Viking News)  
Thieves broke into Golka's garage for the second time this year on Wednesday night, June 3rd. This time they hauled away the large cash register containing about \$25.00 in cash and some account slips. They made their entrance by breaking the window in the south side door and releasing the lock. It is believed that the thieves were in a hurry so decided to take the cash register thinking it contained a large sum of money. The safe in the office was not touched. No trace of the cash register has been found. They might have dumped it into a slough but it could show up in a second-hand store in a far-away place. Police are investigating.

## The Crystal Ball .. Ball ..

As seen in the Crystal Ball one week before election date, the electors are going about their business quite unruffled about the outcome on June 18.

The Manning government is putting up a strong defense, while the other three parties are on the offence with promises of a much better deal for everybody, to the man on the street, the farmer, the student, the schools, the aged, and what have you.

The vision of the outcome is somewhat blurred, but "hope springs eternal in the human breast." 216 candidates are offering their services so there is no lack of material for premier, cabinet ministers and back-benchers.

With this in mind, we go out on a limb and see what the Crystal Ball reveals what the electors will do on June 18.

Here is our earth-shaking forecast:

## Weather Control and Hail Reports

Diversified crops, including hay and pasture, plus hail insurance are still the farmer's best protection against hail losses.

The Alberta Research Council with scientific and technical help from meteorologists, physicists, chemists and many others are attempting to find out what can be done to dissipate hail clouds. Wind and air currents are being studied and radar is being used to track storms. Commercial weather modifiers are also trying to bring rain to drought areas and to prevent hail, but so far there is still no certainty that it will rain or that it will not hail in these areas.

Farmers can plant good seed, cultivate, till, fertilize and do all that is required to grow a good crop but when it comes to regulating the weather, says Alberta's Field Crop Commissioner A. M. Wilson, neither they nor anyone else has demonstrated

## Highway 36 Contracts Awarded

A contract covering Asphaltic Surface Treatment on Highway No. 36, from Killam to south of Viking, a distance of 12 miles, and from Viking to south of Highway No. 16, a distance of approximately 13 miles, has been awarded to Standard Gravel and Surfacing of Canada Ltd., Calgary at a cost of \$223,307.89.

that much can be done about this yet.

We hope, he says, that the time will come when we will have more control over the elements. In the meantime, to assist the scientists in their efforts which are directed to this end, farmers will again be asked to complete hail reporting cards so that actual hail storms can be studied.

## WITH THE District Agriculturist

By J. S. Duncan

### Sewage Disposal Field Day:

There will be a sewage disposal field day held in the Chauvin district on Tuesday, June 16th at 1:00 p.m. This will take place on the farm of Archie Bell, approximately four miles north and two miles east of Chauvin. This field day will demonstrate the proper set up for a septic tank and siphon chamber and the lining up of the sewage line from the house to the septic tank and from the siphon chamber to the cesspool or disposal field. Also to be demonstrated is the use of pre-fab forms for construction of a concrete septic tank. There will be discussion on the planning and installation of the sewage disposal system which should be of interest and value to all farmers whether they have a disposal system or not and whether they intend to put in their own or have the job done for them.

### Care of Summerfallow:

The dry weather and frequent winds experienced so far this spring indicate that this year's summerfallow will have to be handled carefully. Use of a blade type machinery or cultivators will keep more trash on the surface and reduce the chance of soil drifting. Watch the kinds of weeds which are growing and may be possible to substitute spraying for one or more of the cultural operations. If your weed problem is perennial weeds or wild oats, cultivation will be required.

### Pasture Care:

If you hope to get reasonable carrying capacity out of your pasture this year it will have to be handled carefully. Don't let it get grazed too closely at any time as the grass recovers faster if it is not eaten off too short. Keep stock moving from one area to another at frequent intervals. Use of single wire electric fence will help greatly in rotating pasture. If some of your summerfallow could be planted to cover crop such as oats or rye or a mixture of these, it would help out the pasture situation to a great extent.

## NORTH EAST CORNER

We are glad to see that both Mrs. Frank Ford Jr. and Mrs. A. Cook are home from hospital and coming along well.

Last Wednesday the Clifford Fergus had the misfortune to have their car catch fire. Fortunately it was extinguished before irreparable damage was done.

Mr. and Mrs. Henry Shogren and daughter of Edmonton, drove down Saturday bringing Alice Cook home with them.

Miss Joyce Cook of Cold Lake is home for a few days.

Violet Savard had her parents, Mr. and Mrs. Gidora of New Westminster visiting her.

Mr. G. A. Upton, Dot and Billy, visited the B. Walker home on Sunday.

## Glen-Coa Gleanings

Mr. O. Stemmensen accompanied by Mr. R. Bergseth of Lougheed left on Monday of this week for an extended trip to Norway. They travelled by plane from Edmonton which should have enabled them to arrive in Oslo on Wednesday some time.

On Saturday of this week Mr. and Mrs. L. Hollinger and Gordon are leaving for a vacation to North Dakota to visit relatives. We wish them a very pleasant holiday.

The H. Fuder family went on a fishing expedition last weekend to Muriel Lake. Mr. and Mrs. L. Fuder and family of Edmonton and Mr. and Mrs. M. Knudson and family of Red Deer were also along on the outing.

Mr. and Mrs. Geo. Pedel spent last weekend in Edmonton.

The Symingtons were down from Edmonton to visit with Mr. and Mrs. Erling Nilson last Sunday.

A few Sharon folk attended the impressive graduation ceremony of C.L.C. last Sunday afternoon at Camrose. The fifty young people attired in robes and wearing mortarboards were a group of happy graduates, for this was their day. The cold hard fact of coming examinations was put in the background for the time being. The guest speaker was the Hon. A. Aulbo, Minister of Education, who gave a splendid address. His Excellency, Mr. Chester Ronning, Canadian High Commissioner to India, and former C.L.C. principal, also spoke a few words.

Sharon WMF will meet at the home of Mrs. Erling Nilson on June 18th. Assistant hostesses are Mrs. C. Gulbraa and Mrs. K. Gulbraa.

Canadian water power potentials, explored and recorded, are sufficient to yield 66,000,000 horsepower.

Canada's highest peak, Mount Logan in Yukon Territory, has an elevation of 19,850 feet.

Two-thirds of Canada's annual \$200,000,000 fisheries take is exported.

## Cub Corner

Your Correspondent has been sort of slack lately but will try to catch up to date again now. It's a little difficult to hold everyone together now that the holiday season is beginning.

Owing to other activities at home there were not too many Cubs attended the Cubaree at Camp Wainwright. However, those who did go had a good time, I'm sure.

The peanut drive has been lagging behind schedule but I think it will soon be underway. There are two sizes of canned peanuts selling at 50c and \$1.00 each, also peanut butter selling at \$1.00 each can. This is very good peanut butter. Anyone wishing to place orders or purchase prior to the campaign are welcome to do so. The peanuts, etc., are presently housed at Corner Service (Stan Murray's garage).

I suppose everyone knows that Cub meetings are on Wednesday nights at the skating rink for the present at least.

## DONATIONS

Further donations have been received in memory of Mr. W. A. Burton to Bethany Homes from Mr. and Mrs. P. M. Spring. We are sorry a donation to Mr. Burton to the Crippled Children's Fund from Mr. and Mrs. Wm. Walker was omitted from the obituary.

**ALBERTA NEEDS THE LIBERAL PROGRAM**

Vote for ALBERTA

## WHY?

With better management, Alberta would not now be facing a terrific deficit . . . problems in education . . . disgruntled municipalities . . . idle taxpayers . . . social welfare dissatisfaction. What is needed is a strong, virile, Alberta-conscious Liberal Administration. The LIBERAL 12 point action program includes:

- A just share of provincial revenues to municipalities.
- Better education facilities.
- A farm loan up to \$25,000.
- Utilization of our Natural Resources to fully develop industrial opportunities.
- Attention to the North instead of neglect.
